PROFESSIONAL SUMMARY

Motivated 3rd-year Business Information Systems (BIS) student at the Higher Institute of Computers, Information, and Management Technology with a strong foundation in data analytics and process optimization. Proficient in SQL, Python, and Excel, with a keen interest in leveraging LLMs and workflow automation tools to solve business challenges. Eager to apply technical skills to a Junior Automation & AI Analyst role to drive data-informed decision-making and operational efficiency.

EDUCATION

Bachelor of Business Information Systems (BIS) | 2023-2028 (Expected)

Higher Institute of Computers, Information, and Management Technology

GPA: [3.2]

Relevant Coursework: Database Management Systems, Data Structures & Algorithms, Business Process Modeling, Financial Accounting, E-Commerce, Systems Analysis & Design.

EXPERIENCE

AI Automation Specialist Track (DEPI) | National Telecommunications Institute (NTI) | 6-Month Program (2026)

- Integrated LLMs with enterprise automation frameworks like n8n during an intensive 6-month track, deploying functional prototypes to resolve targeted business inefficiencies.
- Engineered API-driven business workflows using n8n to sync Slack, Email, and web applications, reducing communication delays by 30%.
- Prototyped AI agents using advanced prompt engineering (ChatGPT/Claude) for document parsing, achieving highly relevant and business-safe model outputs.
- Analyzed and structured operational data using Python and Excel to map automation opportunities, designing workflows that eliminate manual data entry errors.
- Built and delivered a scalable AI automation capstone project, applying strict governance and security best practices to handle JSON data formats securely.

SKILLS

Technical Skills: SQL, Python, Microsoft Excel (Pivot Tables, VLOOKUP), JSON, Data Mapping, Document Parsing, Data Cleaning & Structuring.

AI & Automation Tools: n8n, Power Automate, ChatGPT, Claude, Gemini, API Integration, Prompt Engineering.

Soft Skills: Analytical Thinking, Cross-functional Communication, Problem-Solving, Process Mapping.
